

Ophthalmologist Job Description

Opportunities for motivated, enthusiastic Ophthalmologists to join our established, multi-specialty vision clinics located in IL, DE, MA, MD, and RI. Generous compensation and benefits package including relocation expenses with leadership and bonus plans available.

Duties/Responsibilities:

- Performs comprehensive examinations of the visual system to determine the nature or extent of ocular disorders.
- Performs ophthalmic surgeries such as cataract, glaucoma, refractive, corneal, vitro-retinal, eye muscle, and oculoplastic surgeries.
- Diagnoses or treats injuries, disorders, and diseases of the eye and eye structures including the cornea, sclera, conjunctiva, and eyelids.
- Documents and evaluates patients' medical histories.
- Performs, orders, and interprets results of diagnostic or clinical tests. Provides or directs the provision of postoperative care. Develops treatment plans based on patients' histories and goals, the nature and severity of disorders, and treatment risks and benefits.
- Prescribes and administers topical or systemic medications to treat ophthalmic conditions and to manage pain.
- Performs laser surgeries to alter, remove, reshape, or replace ocular tissue.
- Educates patients about maintenance and promotion of healthy vision.
- Collaborates with multidisciplinary teams of health professionals to provide optimal patient care.
- Refers patients for more specialized treatments when conditions exceed experience, expertise, or scope of practice of practitioner.
- Instructs interns, residents, or others in ophthalmologic procedures and techniques.
- Prescribes ophthalmologic treatments and therapies such as chemotherapy, cryotherapy, and low-vision therapy.
- Prescribes corrective lenses such as glasses and contact lenses.
- Conducts clinical and laboratory-based research in ophthalmology.

Benefits:

- Competitive compensation package with incentive bonus available
- Bonus packages based on identified practice metrics
- Paid time off, including CME time.
- Competitive benefits for health, disability and 401k offered
- Medical malpractice insurance

- Potential for leadership opportunities which will augment compensation package

Opportunity Highlights:

- Community based out-patient practice with diverse patient population
- Work collaboratively with highly skilled and collegial team in optometry and support staff
- Technician support with specialty testing available on site
- Minimal on call work
- Full or part time with flexible schedules
- Company owned Ambulatory surgical center affiliation
- Supported by helpful and robust MSO that provides backend office support including, finance, marketing, HR, operations, compliance and legal with a growing list of service offerings
- Robust integrated EMR system and data warehouse
- Teaching & research opportunities expected to be available by Q4 2022 or Q1 2023

Minimum Qualifications

- BC/BE Ophthalmology, state license
- Excellent clinical and communication skills
- Work well in a team environment

We are committed to a policy of non-discrimination and equal employment opportunity. All patients, employees, applicants, and other constituents of our clinical groups will be treated with respect and dignity regardless of race, national origin, gender, age, religion, disability, veteran status, marital/domestic partner status, parental status, sexual orientation, and gender identity and/or expression, other dimensions of diversity or common human decency. We value diversity in thought and culture and welcome highly skilled, capable, competent, collegial members to our team.
